

## 1<sup>ST</sup> VIRTUAL WORKSHOP

# “BOOSTING CIRCULAR ECONOMY IN CITIES THROUGH NEW MODELS OF MUNICIPAL SOLID WASTE MANAGEMENT. THE URBIOFIN BIOREFINERY CONCEPT”

16<sup>th</sup> June 2020 at 10 am CET

### PRELIMINARY AGENDA

- 10:00 Welcome and Introduction  
*Caterina Coll, IMECAL*
- 10:10 The EU Green Deal. Legislation framework  
*Andrea Accorigi, EC*
- 10:25 Achieving Circular Economy in Municipalities  
*Vanya Veras, MWE*
- 10:40 The city of Porto case  
*Telmo Machado, LIPOR*
- 10:55 Round table  
*Moderator: Caterina Coll*
- 11:10 Q&A
- 11:25 URBIOFIN Project: a new urban biorefinery model  
*Caterina Coll, IMECAL*
- 11:30 Transforming municipal solid waste into bioethanol and bio-ethylene for value-added market applications (Demo I)  
*Marcos Latorre, IMECAL*
- 11:40 Combining AD and other fermentation technologies for a new generation of biopolymers aimed at cosmetic and agricultural applications (Demo II)  
*Juan Carlos López, ainia Centro Tecnológico*
- 11:50 The role of biogas/anaerobic digestion in the future of Urban Biorefineries: Production of higher-value biostimulants and biopolymers with algae and bacteria (Demo III)  
*Víctor Pérez, University of Valladolid*
- 12:00 Q&A
- 12:10 Wrap-up & closure of the workshop
